

PROFESSIONAL SUMMARY

Infosys Certified Java Programmer and B.Tech Information Technology student (8.1 CGPA) at VSB Engineering College. Proven expertise in AI & Automation Engineering, Large Language Models (LLMs), Python, and Computer Networking. Experienced in developing OCR billing automation pipelines and autonomous voice AI agents. Seeking opportunities in software engineering and AI automation roles.

EDUCATION

VSB Engineering College, Karur	2023 – 2027
Bachelor of Technology in Information Technology	CGPA: 8.1 / 10
Bharani Park Matric Higher Secondary School, Karur	Completed
Higher Secondary Certificate (Class XII)	

TECHNICAL SKILLS

Programming Languages:	Java (Infosys Certified), Python, SQL
AI & Automation:	LLMs (Gemini, Groq, OpenAI API), NLP, Tesseract OCR, Playwright
Core CS & Networking:	Computer Networking (NPTEL Certified), TCP/IP, HTTP/REST APIs, OS
Tools & Databases:	Git, GitHub, VS Code, SQLite, MySQL, Linux Shell

KEY PROJECTS

- JARVIS – Autonomous Voice & System Automation Agent | Python, Express, Web Speech API
- Engineered an autonomous voice-controlled agent featuring a multi-step cognitive reasoning loop (ReAct).
 - Implemented automated terminal command execution, live web telemetry, file operations, and long-term memory store.
 - Integrated real-time HTML5 audio frequency spectrum visualization canvas and hands-free vocal synthesis.
- Freelance OCR Billing Automation System | Python, Tesseract OCR, OpenCV
- Developed a billing software application with automated OCR invoice data extraction and validation.
 - Reduced manual data entry processing time by 75% while maintaining 98%+ data extraction accuracy.
- Machine Learning Classification & Predictive Engine | Python, Scikit-Learn, Pandas
- Designed, trained, and evaluated a predictive machine learning classification model with complete feature engineering.
 - Published complete source code and model artifacts to GitHub with full documentation.

CERTIFICATIONS & ACHIEVEMENTS

- Infosys Certified Java Programmer (2024) – Earned official Infosys accreditation for advanced Java programming.
- NPTEL Certification: Demystifying Networking (2025) – Certified in core Computer Networking & TCP/IP architecture.
- Udemy Certification: AI & ML Made Easy: Basic to Advanced (2025) – Comprehensive machine learning & AI systems training.
